Nicolaj Nøddesbo &
Tommy Hyldahl

Duck Tray, Big - Coffee

Product Description

Reminiscent of little, individual three-legged characters or friendly creatures, the Duck Tray is a playful and exuberant addition to a more minimalist series of trays, vases, bowls, pots, jars and plates in a modern interior. Yet, true to the design manifest of 101 Copenhagen, the collection is held in natural colours to fit into the Scandinavian home.

Complement the Duck Tray with other pieces from the Duck collection, which comes in various shapes, sizes and colours - like individual family members gathered around a table. Perfect for display on a dining table, windowsill, or coffee table, the Duck Tray brings a touch of playful character to any setting. Whether styled alone as a statement piece or grouped with other members of the Duck collection, it adds warmth, charm, and a sense of personality to both modern and classic interiors.

As it is a hand glazed natural product, the colours may vary slightly.

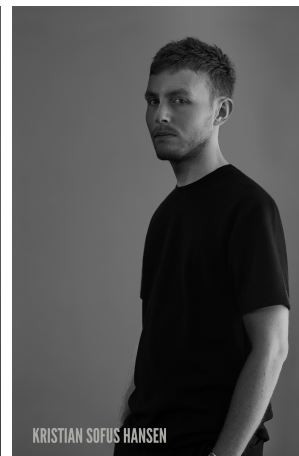

Designer Description

Tommy Hyldahl and Nicolaj Nøddesbo intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Nicolaj, a Danish designer educated at the Aarhus School of Architecture, adds a sculptural precision to their shared vision. His work spans furniture, lighting, and objects, defined by innovation, tactility, and a serene minimalism. Each piece balances function and emotion, where form carries both presence and purpose.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

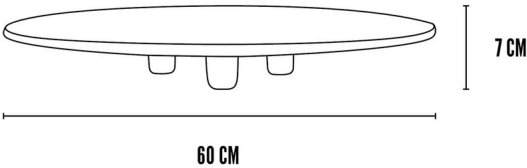

Duck Tray, Big - Coffee

Family Description Text

In ancient Japanese pottery and ritual craft, three-legged vessels known as komae tripods were shaped as symbols of balance and stability. The Duck Collection carries a whisper of this tradition, its forms standing on three cylindrical legs that feel both grounded and alive, like small companions poised to move. They gather not as objects but as characters, some leaning close together, others standing apart, yet all sharing the same quiet presence, as if exchanging stories in silence. Sculptural and playful, the collection brings a gentle exuberance into the home while holding on to a sense of calm. Hand-shaped in clay, softened by touch, and finished in natural hues, each piece is unique, bearing subtle variations that make it singular, like individuals within a family. The Duck Collection is a story of form and spirit, a meeting of balance, imagination and togetherness.

Color Description

Hand-painted in a deep, warm dark brown, this shade evokes the richness of earth and roasted beans. Its grounded elegance lends both warmth and depth, while brush stroke variations bring gentle shifts in tone and texture, making each piece entirely unique.

Maintenance Guide Description

Our hand-painted fiber concrete vases combine strength with artistry, designed for indoor use and crafted to be fully waterproof inside.

To care for the finish, dust the exterior gently with a soft, dry cloth. If deeper cleaning is needed, wipe carefully with a damp cloth and mild, pH-neutral soap, then dry immediately. Avoid abrasive pads, harsh chemicals, acidic or alkaline cleaners, and sharp objects, as these may damage the hand-painted surface.

The vases are waterproof within and can safely hold water for fresh flowers. After rinsing, dry gently and take care not to let excess water sit on the painted exterior, helping to preserve its finish over time.

With mindful care, each vase will retain its depth, warmth, and unique hand-painted character, becoming a lasting presence in your home.

Materials Description

Hand-painted fiber concrete combines strength with artistry, transforming an industrial material into a refined surface for pieces that enrich the home. Reinforced with fibers for durability, it offers resilience against everyday use while remaining lightweight and versatile. Each piece is painted by hand, creating subtle variations in tone and texture that make every surface unique.

The result is a finish that balances raw honesty with crafted detail, bringing depth, character, and individuality to contemporary interiors.
