DESCRIPTION

Icon of Italian design and the result of the brainchild of designers Michele De Lucchi and Giancarlo Fassina, the Tolomeo lamp was launched on the market in 1987. It embodies the perfect balance between functionality and aesthetics.

The design of the Tolomeo is characterized by clean and minimalist lines, with a structure made of aluminum. This material gives the lamp not only a modern and sophisticated look but also remarkable lightness and robustness.

One of the distinctive elements of the Tolomeo is its articulated arm system. Thanks to an innovative spring mechanism, the lamp can be easily adjusted in height and tilt, ensuring great flexibility of use.

In the decentrata version, the iconic Tolomeo retains the system of spring-balanced arms that allows light to be moved to any position with the greatest of ease but the aluminum head has been replaced by a balanced version in aluminum or a balanced diffuser in three different sizes that casts a soft glow into its surroundings.
