# LAYOUT CHAIR

131 | 132 | 133 | 134

## HIGHLIGHTS

- Part of a cohesive seating collection offering versatility across various settings and configurations
- Distinctive backrest opening adds comfort and visual lightness
- The shell and seat are crafted from a minimum of 96% post-consumer recycled plastic and offered in a variety of colours
- With circularity in mind, all components can be fully disassembled, featuring removable upholstery and replaceable parts
- Removable fabric cover with discreet zipper in the backrest cutout, ensuring no glued foam for removal and replacement
- Available with plastic shell and seat (131), with plywood seat (132), upholstered seat (133) or fully upholstered shell (134) in a large selection of fabrics and olive-leaf tanned leather
- Features a 4-star swivel base available in polished or powder-coated aluminium
- Other base options include 4-leg steel base, solid wood legs, 5-star swivel base, arc base, and arc base with wheels
- Suitable for a wide variety of private and public environments

# LAYOUT CHAIR 131 | 132 | 133 | 134

## DESIGN BY JULIEN RENAULT

Designed by Julien Renault, the Layout Chair 131- 134 variants offer a flexible and innovative design shaped by a commitment to comfort, functionality, and circularity. Characterised by the opening in the backrest, this defining feature provides greater comfort while giving its appearance a sense of lightness and transparency. Featuring an aluminium swivel four-star base designed for stability and ease of movement, all chair components can be fully disassembled to extend its lifespan and enable refurbishment for long-term use. The shell is crafted from a minimum of 96% post-consumer recycled plastic and offered in a variety of colours, which can be combined with different seat options or a fully upholstered seat for added comfort, making Layout a versatile and durable seating solution ideal for offices, restaurants, public institutions, and domestic environments.

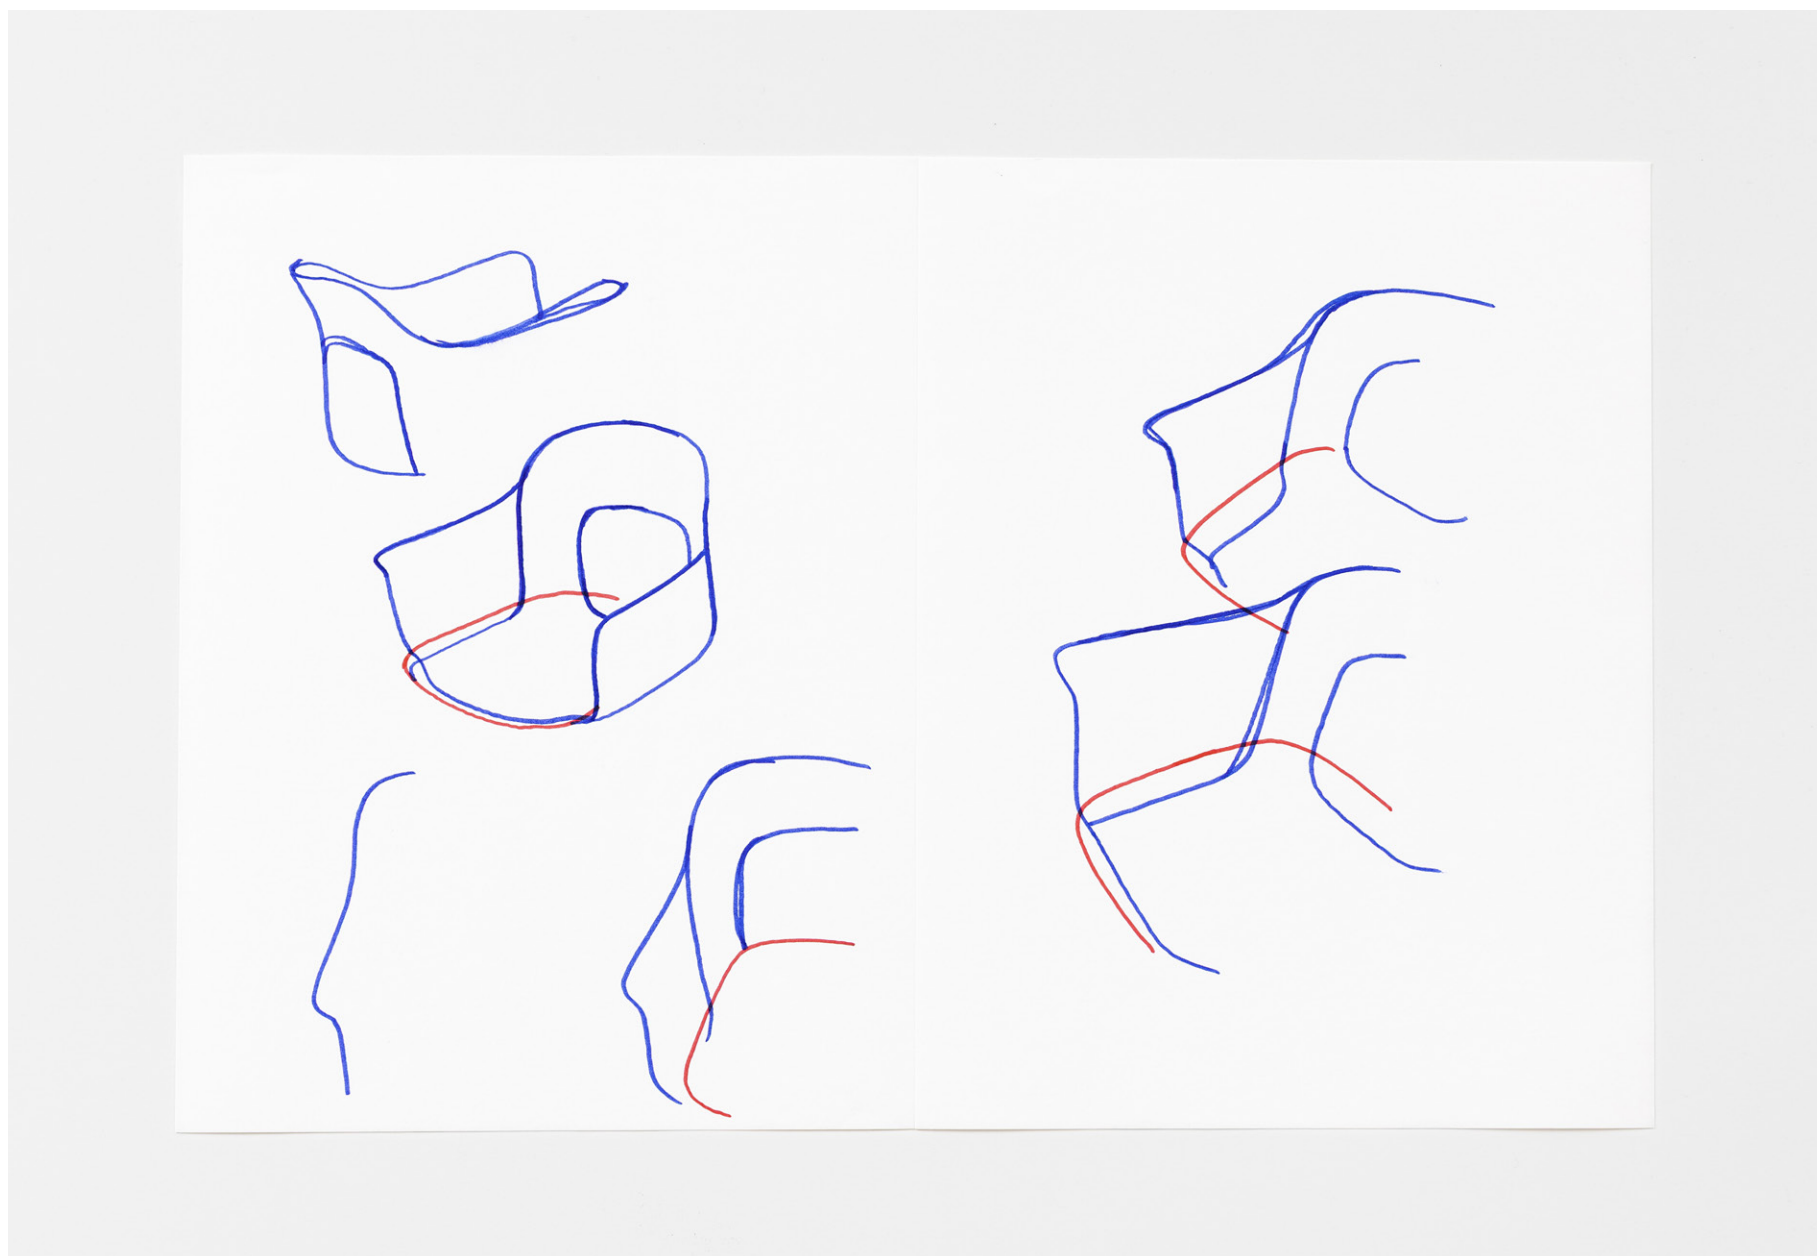

French designer Julien Renault blends rational methods with artistic freedom in his approach to design. Based in Brussels, he draws inspiration from everyday life, transforming the ordinary into something beautiful. His work for numerous international brands reflects the deep connection between objects and their environments. For HAY, Julien has designed the Pastis Table and Chair series, Compass Lamp Collection, and Layout Chair.

Layout Chair 131 | Pastel green shell | Polished steel base

MATERIALS

**SHELL**  
Injection moulded solid-coloured polypropylene shell without armrest.  
Made from at least 96% post-consumer recycled PP. Available as full upholstery with cut foam

**SEAT**  
Made from at least 96% post-consumer recycled polypropylene, water-based lacquered plywood, or upholstery with moulded foam

**BASE**  
Powder coated or high polished 4-star swivel base in cast aluminium

**GLIDER**  
Plastic. Standard on all variants. Suitable for all flooring types that are not too sensitive

**FABRIC & LEATHER UPHOLSTERY**  
Please see our Fabric Overview for approved standard fabrics.  
**LINK TO OVERVIEW**

The upholstery can be replaced to extend the product's life. HAY recommends consulting a professional. For more information, contact your HAY sales representative.

Lounge and public seating  
IN PROGRESS

### SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
