HARBOUR LOUNGE CHAIR, SWIVEL  
Designed by *Norm Architects*

*Soft minimalism meets plush comfort  
in a new addition to the Harbour Collection.*

Audo introduces Harbour Lounge Swivel, a new member of the Harbour series designed by Norm Architects. The addition brings a new dimension of comfort and function to the collection, combining the series' sculptural language with the ease of lounge seating.

The generously proportioned shell, with its angled backrest and curving armrests, creates an embracing silhouette. Deep cushioning elevates the sense of comfort, while the swivel base, offered in polished aluminium or black powder coating, adds a dynamic element to the design.

Designed for both domestic and contract settings, it offers an understated flexibility, available with or without a return function to suit diverse needs. The return option — a subtle but thoughtful feature — ensures the chair always returns to its resting position, preserving order in public spaces without compromising its graceful silhouette.

Upholstery options in premium textiles, combined with the choice of star base finishes, make the Harbour Lounge Swivel a personal piece, adaptable to any environment.

*About the Designer*

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specializes in residential architecture, commercial interiors, industrial design, photography and art direction. The name reflects the studio's emphasis on drawing inspiration from norms and traditions in architecture and design — particularly the Scandinavian design ideology of timeless aesthetics and natural materials and Modernist ideas of restraint and refinement. Guided by these principles, Norm Architects creates designs that unite materials and craftsmanship while embodying beauty, history and, most importantly, timeless simplicity with nothing more to add or subtract. A longstanding collaborator with Audo, Norm Architects helps to drive the evolution of the brand and its products with the same fundamental ethos that guides its own creative direction: a simplicity that carries bigger ideas.
