

Mynt High

Erwan Bouroullec, 2026

vitra.

Mynt brings a new way of sitting to offices, public spaces and home interiors. It responds to the fact that people no longer sit in the same chair for lengthy periods of time and instead often share chairs with other users. In office settings, Mynt takes on the home-like appeal of a universal chair, while in domestic interiors, it provides the dynamism of an office chair – thus defying conventional categorisations.

The Mynt High counter chair is suitable for use with high tables and bars. The core element is its patented mechanism, which tilts forwards or backwards as the sitter changes position, with the seat moving independently of the backrest. The movement resistance automatically adapts to the user's weight – only the height of the chair requires adjustment.

An elegant footrest provides added support and comfort. The seat and backrest come in a choice of natural oak or dark walnut veneer, as well as recycled polyamide from 100% post-industrial sources. These may be replaced or exchanged for a different material or

colour option at any time. The chair is equipped with either a five-star base or four-star base, whose glides can be replaced with castors and vice versa – and the relevant office standards are fulfilled in each variation.

Padded covers are available for the seat and backrest. The polyurethane foam „V-Foam“ used in the seat cushion was developed by Vitra in partnership with BASF as the world's first economically recyclable polyurethane foam; the padding of the back cushion is made of polyester fibre. Thanks to zip fasteners, the two upholstery elements can be easily removed for cleaning or replacement – allowing Mynt High to retain its fresh look and flexibly adapt to new needs.

Mynt also exists as an office swivel chair and as the compact Mynt Soft lounge chair.

Materials

- **Counter chair in accordance with EN 16139.**
- **Mechanical unit:** mechanism in aluminium with automatic weight adjustment and locking feature. Equipped as standard with seat height adjustment and forward tilt.
- **Backrest:** backrest with armrests, made of 100% recycled post-industrial polyamide or veneer.
- **Seat:** 100% recycled post-industrial polyamide or wood veneer.
- **Upholstery:** seat cushion made of recyclable polyurethane foam „V-Foam“ with fabric cover; back cushion made of polyester fibre with fabric cover.
- **Footrest:** aluminium, powder-coated.
- **Base:** four-star base in aluminium with powder-coated finish, equipped with reverse brake castors (Ø 60 mm) or glides, mechanism and frame colour matched to base; or five-star base in deep black polyamide, fitted with reverse brake castors (Ø 60 mm), mechanism and matching frame in a choice of colour versions.
- **Packaging:** delivered fully assembled in polyethylene bag, on request in cardboard box.

Mynt Soft

Erwan Bouroullec, 2026

vitra.

Mynt Soft is an inviting, compact lounge chair that offers excellent comfort. Discreetly integrated beneath the seat, the patented Mynt mechanism is activated by body weight and tilts forwards or backwards as the sitter changes position, with the seat moving independently of the backrest. The movement resistance automatically adapts to the user's weight.

The combination of Mynt Soft's cushioned padding with the dynamic movement of the seat and back delivers an experience that the sitter can only fully appreciate through use. The lounge chair is mounted on a swivel base and adjustable in height – from a low lounging setting to a position suitable for dining or work tables.

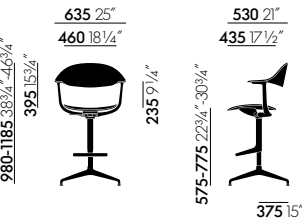

The upholstery of Mynt Soft is made from V-Foam, the world's first economically recyclable polyurethane foam developed by Vitra in collaboration with BASF. Covers can be selected in fabric or leather in a wide range of colours.

Mynt also exists as an office chair and as the Mynt High counter chair.

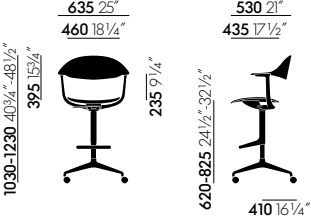

Materials

- **Lounge chair in accordance with EN 16139.**
- **Mechanical unit:** mechanism in aluminium with automatic weight adjustment and locking feature. Equipped as standard with seat height adjustment and forward tilt.
- **Backrest:** backrest with armrests, wood veneer.
- **Seat:** wood veneer.
- **Upholstery:** recyclable polyurethane foam „V-Foam“ with fabric or leather cover.
- **Base:** four-star base in aluminium with powder-coated finish, equipped with double castors (Ø 50 mm) or glides, mechanism and frame colour matched to base; mechanism and matching frame in a choice of colour versions.
- **Packaging:** delivered fully assembled in polyethylene bag, on request in cardboard box.

Cento Medium use, F120

Mynt Soft

Cento is made of 100% high-quality virgin wool. Its bouclé appearance and three-dimensional structure create a lively surface texture with a voluminous granular feel. Thanks to the sustainable purity of the wool, Cento has been granted the EU Ecolabel.

Cento is available in 14 colours.

Material	100% new wool
Weight	620 g/m ² (18.3 oz/y ²)
Width	147 cm +/- 2 cm (58")
Abrasion resistance	30,000 Martindale
Fastness to light	Type 5
Pilling	Grade 4-5
Fastness to rubbing	Grade 4 dry and wet

Cosy 2 Heavy use, F8o

vitra.

Mynt (upholstery), Mynt Soft

Cosy 2 is a high-quality milled woollen cloth with a warm character. The lively melange yarn emphasises the fabric's natural colours – from delicate shades to vibrant hues – and gains added elegance with colour-coordinated stitching. The fabric offers thermal comfort and excellent durability, making it suited for upholstered furniture in office settings as well as residential applications.

Cosy 2 is available in 15 colours.

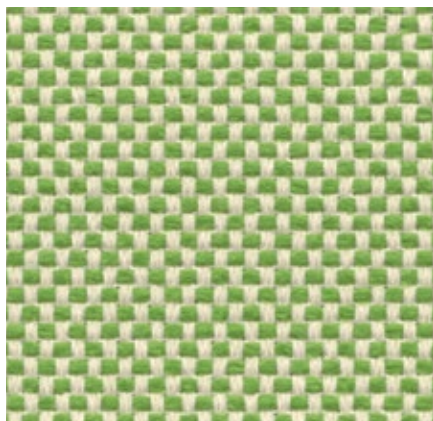

Material	20% polyamide, 80% new wool
Weight	590 g/m ² (17.4 oz/y ²)
Width	154 cm +/- 2 cm (61")
Abrasion resistance	50,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Laser RE Heavy use, F40

vitra.

Mynt (upholstery), Mynt Soft

The environmentally friendly fabric Laser RE is made from recycled polyester. It has a distinctive woven appearance, which is particularly accentuated by contrasting duotones in a varied palette of 25 colours. Practical and easy to care for, as well as durable and highly abrasion-resistant, Laser RE is also well suited for office environments.

Laser RE is available in 25 colours.

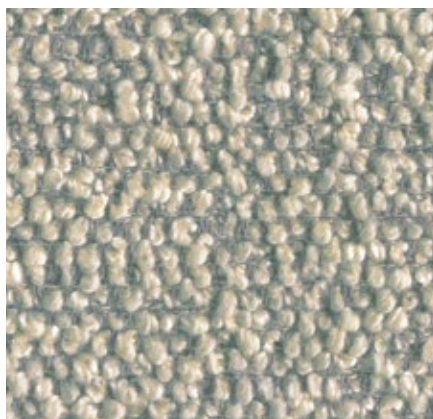

Material	100% recycled polyester
Weight	520 g/m ² (15.3 oz/y ²)
Width	144 cm +/- 2 cm (57")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 6

Nubia Medium use, F100

vitra.

Mynt Soft

Nubia is a blended fabric with a very lively, natural appearance. Its fine substructure is interspersed with voluminous bouclé yarn, which gives the fabric depth and a soft, inviting touch. The varying combinations of yarns yield either contrasting or calm colour compositions with a distinctly Mediterranean flair.

Nubia is available in 11 colours.

Material	2% polyamide, 30% new wool, 25% polyacrylics, 43% polyester
Weight	570 g/m ² (16.8 oz/y ²)
Width	140 cm (55")
Abrasion resistance	35,000 Martindale
Fastness to light	Type 5
Pilling	Grade 4
Fastness to rubbing	Grade 3-4 dry and wet

Plano Heavy use, F30

vitra.

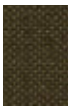

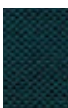

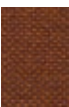

Mynt (upholstery), Mynt Soft

Plano is a robust plain weave with a flat, even texture. The wide palette of duotones with new, delicate washed-out shades includes many relatively neutral hues, a good number of which are coordinated with the Hopsak colour range. Thanks to its durability and longevity, Plano is also an ideal choice for office furnishings.

Plano is available in 39 colours.

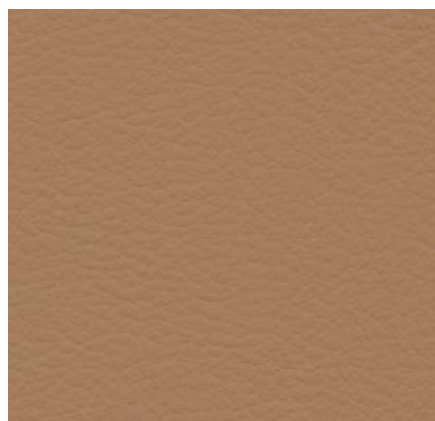

Material	100% polyester
Weight	265 g/m ² (7.8 oz/y ²)
Width	142 cm +/- 2 cm (56")
Abrasion resistance	80,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5

Leather Premium F Medium use, L50

vitra.

Mynt Soft

Leather Premium F is a relatively smooth cowhide leather with a flat grain and fine top sheen. It is dyed-through and lightly pigmented. Leather Premium F is processed with a tanning agent extracted from olive tree leaves (a waste product of the olive harvest), and the entire production process is carried out with the least hazardous chemicals in the smallest possible amounts.

This pleasantly soft, sustainably produced semi-aniline leather is available in a selection of 22 colours.

Material

Semi-aniline nappa leather with a very soft and supple feel, vegetable tanned
