Kristian Sofus Hansen &
Tommy Hyldahl

Ishi Coffee Tables, Medio - Smoked Desert

Product Description

Named after the Japanese word for "rock," the Ishi Coffee Table is a sculptural piece that captures the quiet beauty of natural stone formations. Its organic, cube-like form, with soft, time-worn deformations, balances minimalism with a sense of grounded calm.

Each table is mouth-blown from molten glass, shaped in a custom mold at 1500°C, then tempered and hand-finished. A spray-painted inner surface gives Ishi its distinctive hue, while a wooden base with metal reinforcement adds strength and stability. Subtle variations and air bubbles make each piece unique.

The Smoked Desert, is a soft, misty grey. Ishi functions equally well as a side table or centerpiece. Its quiet presence makes it an ideal fit for living rooms, lounges, or reception areas, where it effortlessly anchors the space with elegance. For a more dynamic and layered expression, combine several together or mix across the mini and medio sizes.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Fire Test Foam	N/A	NF P92-507 - Class M1

Ishi Coffee Tables, Medio - Smoked Desert

Family Description Text

Named after the Japanese word for "rock", the Ishi Collection is a meditation on stillness and strength, sculptural forms that echo the quiet poetry of stone shaped by time. With softened edges and organic silhouettes, each piece carries a sense of serenity, balancing minimalism with a grounded, natural presence.

The collection is expressed in two distinct materials, each with its own voice. In glass, Ishi radiates with luminous depth, its layered hues shifting gently with the light. In ceramic, it reveals a more tactile beauty, hand-painted and finished in a high-gloss glaze, alive with subtle variations that make every piece unique.

The Ishi Collection moves fluidly through interiors, standing alone as a sculptural statement, serving with quiet elegance as a table, or arranged in clusters that create rhythm and dialogue within a room. More than functional objects, these works bring permanence and calm, rooting interiors in beauty, balance, and timeless presence.

Color Description

A soft, warm grey with delicate translucency, reminiscent of early morning mist over desert sands.

Maintenance Guide Description

Though delicate in appearance, the glass is strong and durable, designed for everyday use in decorative and functional objects. To maintain its pristine look, we recommend regular cleaning with a soft microfiber cloth and a gentle glass cleaner or diluted soap solution. Spray the cleaner onto the cloth (not directly on the glass) and wipe in smooth, circular motions. Always dry with a clean cloth to prevent streaks or water marks. Avoid abrasive cleaners, scouring pads, or acidic substances, which can dull or damage the glossy surface. For tables, use coasters or felt pads under objects to prevent scratches or thermal shock from hot items. While the glass is moisture-resistant, it's best to avoid prolonged exposure to standing water or humidity, especially for vases empty and dry them between uses to preserve the finish. Elegant, minimal, and low-maintenance, our glass combines lasting beauty with functional design. With a little care, your table or vase will retain its distinctive charm for years to come

Materials Description

Our painted glass is created by applying pigment to the inner surface of the glass, a process that preserves the smooth clarity of the outer layer while enriching the material with depth and character. Though visually and tactilely identical to colored glass, the painted finish adds an artisanal dimension, with subtle variations that make each piece unique.

Durable yet refined, painted glass reflects light with the same purity and brilliance as coloured glass, offering a timeless surface that balances precision, craftsmanship, and contemporary expression.
