Product description:

The Monolith is a small piece of furniture designed as a multifunctional element for any urban space. It can be used as a step stool, a low table, or a side table. The design is inspired by the Arc de Triomphe, with its solid pillars and imposing yet elegant presence. The unique wood-joining technique highlights the beauty of solid wood and its natural grain, giving Monolith a strong foundation. It is solid, sturdy, and made to last for generations. The Monolith is reduced to its essential form and purpose.

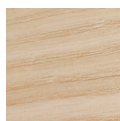

Designer's thoughts:

"I wanted to emphasise the weight and solidity of the wood through its robust dimensions, creating a slow and calm expression. A piece of furniture intended to embody a sense of permanence and stillness." – Jonas Herman, Herman Studio"
