Product description:

A small versatile companion for any type of living space. The contrast between the sharp leg profiles and the gently rounded edges of the tabletop creates a striking and sophisticated effect. In a functional detail, a gap between the frame and the tabletop creates a convenient place to store journals, magazines and newspapers. The table is carefully dimensioned to match a wide variety of uses and contexts, for example as a coffee table, magazine rack, side table or bedside table.

Designer's thoughts:

'The idea came from an investigation of constructions, especially how it is possible to achieve a high degree of strength using thin panels. Hands-on experiments led to the assembly method, in which thin sheets of plywood are milled into solid wood to form both the construction and the design expression. The rounded edge that meets each leg gives the piece an elegant and transparent character.'—Jonas Herman, Herman Studio
